

I'm Drug Free!

I have three reasons why I'm drug free. The first reason is because they can make you very sick. The second reason is because they are illegal, and you will go to jail. The last reason, is they can hurt the people you love.

My daddy used drugs a really long time ago. When I was born he got help and, never used drugs again. He told me he got help because he loved us so much, that he wanted to be better for us.

He had been drug free for many years. One day he wasn't feeling well, and went to the doctor. The doctor told him even though he stopped using drugs a very long time ago, the drugs he used still made his liver bad, and he needed a new one. My daddy didn't get his new liver, he went to Heaven on November 18, 2012. So NEVER EVER USE DRUGS!!!
